Professional Summary

MCA postgraduate student with hands-on experience in full-stack web development, AI-powered applications, and project/event coordination. Built AI and web-based projects using React and Node.js, with experience in technical documentation, data management, stakeholder coordination, and digital campaign execution. Strong foundation in programming, problem-solving, communication, and cross-functional collaboration, with the ability to adapt across software development and technology-driven project environments.

Education

N.M.A.M. Institute of Technology, Nitte, Karnataka, India <i>Master of Computer Applications (MCA)</i>	2025 – 2027
Dr. NSAM First Grade College, Nitte, Karnataka <i>Bachelor of Computer Applications (BCA)</i>	2022 – 2025

Leadership & Campus Media Experience

MCA Department, N.M.A.M. Institute of Technology <i>Media Head (Marketing Operations)</i>	2025 – Present
- Coordinated event logistics and media coverage across 5+ department programs with 180+ student volunteers. - Managed department social media pages, publishing 15+ promotional posts and increasing engagement.	
BCA Program, College Fests & Committees <i>Media Team Member (Marketing Operations)</i>	2022 – 2025
- Executed promotional campaigns for 4 departmental events, growing average post engagement by 87%. - Maintained event and participant records using Google Sheets, Forms, and Drive. - Used AI tools to transcribe/summarize meeting audio and draft communications, cutting documentation time by 50%.	

Internship Experience

Zephyr Technologies and Solutions Pvt. Ltd. <i>Student Trainee</i>	Jun 2024 – Jul 2024
- Prepared and maintained technical documentation for MERN Stack projects, documenting project components, workflows, and development activities. - Gained practical exposure to software development workflows, project documentation, and structured task execution in a professional environment.	

Project Experience

FoodIQ – AI-Powered Food & Nutrition Recognition System

- Built a full-stack web application (React frontend, Node.js/Express backend) that lets users upload a photo of any meal and instantly identifies the food item.
- Integrated a deep-learning image recognition model trained on 148,000+ food images to accurately identify Indian dishes, fruits, vegetables, and global foods.
- Connected recognized items to the official USDA nutrition database to auto-calculate calories, protein, carbohydrates, fats, and a 0–100 health score in real time.

Photo Studio Management System (PSMS)

- Designed a platform integrating appointment scheduling, client database management, billing, and asset organization, eliminating double bookings.

Skills

- Programming & Development:** Python, MERN Stack, Git, SQL
- AI/ML:** AI/ML Fundamentals, AI-Powered Application Development, Prompt Engineering
- Web Development:** React, Node.js, Express.js, Full-Stack Web Development
- Project & Operations:** Project Coordination, Event Coordination, Stakeholder Management, Vendor Management, Records & Data Management, Cross-Functional Collaboration, Agile Fundamentals
- Marketing & Creative:** Campaign Planning, Social Media Promotion, Canva, Adobe Photoshop, Lightroom, Blender, DaVinci Resolve
- Tools & Platforms:** Git, Microsoft Office, Google Workspace, Vercel
- AI Productivity Tools:** Claude, Antigravity, ChatGPT

Honours & Awards

- 1st Place – Photography, ETTIN 2025, Justice K S Hegde Institute of Management, Nitte (National-Level Fest)
- 1st Place – Nitte Aqua Lens 2024 Photography Competition, SDG Cell, Nitte University
- 2nd Place – Photography & Reel Making, AGON 2024, ALVA'S Institute of Engineering and Technology, Mijar

Certifications & Languages

- Microsoft Azure AI Learning Challenge – Microsoft (covered applied AI fundamentals and use cases); Cyber Security Fundamentals – ICT Academy; Android Application Development for Beginners – Dr. NSAM FGC, Nitte
- Languages: English, Kannada, Hindi; Japanese (Beginner)
